I. INSTRUCTIONS

This data release for the measurement of the photoelectric absorption cross section ($\sigma_{\text{p.e.}}$) consists of two files:

`pexsec_experimental_results.txt`

This file contains the data points for Figure 5 (Top) of the accompanying paper. It is a tab-delimited text file with a single header row and 5 columns:

- Column 1: Temperature (K)
- Column 2: Energy (eV)
- Column 3: Energy Error (Lower Bound) (eV)
- Column 4: Energy Error (Upper Bound) (eV)
- Column 5: $\sigma_{\text{p.e.}}(\text{cm}^2/\text{g})$
- Column 6: $\sigma_{\text{p.e.}}$Error (cm^2/g)

`pexsec_model_fits.txt`

This file contains the model curves for Figure 5 (Top) of the accompanying paper. It is a tab-delimited text file with a single header row and 5 columns:

- Column 1: Energy (eV)
- Column 2: $\sigma_{\text{p.e.}}(\text{cm}^2/\text{g})$ at 0.5 K
- Column 3: $\sigma_{\text{p.e.}}(\text{cm}^2/\text{g})$ at 5 K
- Column 4: $\sigma_{\text{p.e.}}(\text{cm}^2/\text{g})$ at 77 K
- Column 5: $\sigma_{\text{p.e.}}(\text{cm}^2/\text{g})$ at 295 K
